

COVID-19 VACCINE

Latest Updates & Resources

Dec. 1, 2021

EVERYONE 18+ SHOULD GET A COVID-19 BOOSTER

On Nov. 29, the Centers for Disease Control and Prevention (CDC) released [new guidance](#), stating that anyone 18 and older **should** receive a COVID-19 booster. Remember: the timing of your booster is important. You must wait at least six months after a Pfizer or

Moderna two-shot primary series, or two months after the single-dose Johnson & Johnson. If it's already been longer than that since you got your primary vaccination, [schedule a booster shot](#) now at any vaccination site that offers the vaccine type you prefer.

More booster news:

- CDC director Dr. Rochelle Walensky released a statement on Nov. 29 outlining the [expanded booster guidance](#).
- And remember: You can [mix and match](#). You may prefer the vaccine type you originally received or decide to get a different booster.
- Pfizer is expected to apply for an Emergency Use Authorization this week for approval of its vaccine for teens 16 and 17. Approval is expected soon.
- Most sites at [OurShot.IN.gov](#) are administering boosters. Please note: Some sites are only offering Pfizer vaccine (no boosters) for kids 5 – 11. Those sites have a red pin.
- Booster dose data are now on the [vaccine dashboard](#), which is updated by 5 p.m. weekdays.

To date, **3,442,266** Hoosiers have been fully vaccinated!

NEW VARIANT OF CONCERN: Omicron

On Nov. 25, the World Health Organization identified the Omicron variant of the SARS CoV-2 virus as a [variant of concern](#). The CDC [announced today](#) that the first case has been identified in the United States. According to the [CDC's news release](#), vaccines and boosters are our best defense. In addition, vaccine manufacturers are working to understand how well their vaccines defend against this new variant, with [Moderna releasing a news release](#).

OURSHOT.IN.GOV

The OurShot map is updated daily with the latest mobile vaccine clinic additions, changes to existing units and indicating drive-thru sites, and clinics offering pediatric vaccine for kids age 5-11. Find a vaccine clinic near you at [OurShot.IN.gov](#).

VACCINE CLINIC CONTINUES AT INDIANAPOLIS MOTOR SPEEDWAY

IndyCar parking lot, 4551 W. 16th St., Indy

Now through December 22, a drive-thru clinic at Indianapolis Motor Speedway (IMS) offers all three COVID-19 vaccines, including the pediatric Pfizer dose for kids 5 to 11. The [flu vaccine](#) is available while supplies last.

Dates & times:
